Carbon Reduction Commitment

At Simar Analytical S.r.l. we are dedicated to sustainability and recognize the importance of taking proactive actions to protect the environment.

We are committed to reduce our absolute Scope 1 and Scope 2 emissions by a minimum of 21% by 2029 referring to 2024 as baseline year, in line with sustainability requirement.

We will achieve this by shifting our fleet to hybrid or battery-powered vehicles and by moving to renewable electricity suppliers.

Beyond commitments we recognize the importance of transparent reporting and accountability. Therefore, we will continue to regularly report our progress on our emissions reduction efforts to our clients, ensuring transparency and demonstrating our dedication to sustainability.

Sincerely,

Fausto Molari Simar Analytical S.r.l.

Year	Scope 1 Emissions	Scope 2 Emissions	Total Emissions	Reduction from
	(kg CO2e)	(kg CO2e)	(kg CO2e)	Baseline
2024	57.135	2.005	59.140
